

Welcome to C.

C. Cosmetics is an (online) store and beauty salon with 100% clean and organic cosmetics. C. offers a variety of beauty products, make-up and treatments that are truly good for your skin. The ingredients of the brands available in our store all meet the same strict criteria: pure nature and free from harmful synthetic additives.

Every initial treatment session starts with an elaborate professional consultation by one of our experienced skin specialists. The skin type is checked, as well as the health of the skin and possible problems. We also take into account your specific needs. With every treatment, your skin is checked again and further personal advice given.
